

iG Publishing Science, Engineering & Technology

offers a comprehensive, aggregated ebook subscription within a diverse range of topics such as chemistry, physics, math, geology, geography, IT, computer science, gaming, engineering, agriculture, environmental studies, natural history, medicine, and more. The subscription provides an affordable base collection that helps researchers in many areas of study improve outcomes and develop the skills and knowledge they need to succeed in rapidly evolving areas of study.

ACS Publications maintains the highest editorial standards, with fast, informed peer review and publication decision-making by prominent editors who are active researchers in the field. Each year, more than 140,000 practicing scientists from around the world trust ACS Publications to rapidly advance their very best research.

Main Topic: *Agricultural and food chemistry, cellulose and renewable materials, chemical education, organic chemistry, polymer chemistry, materials, and many others*

Alpha Science International (ASI) was formed in 2000 by a group of experienced international publishers with a combined experience of more than 80 years in the publishing industry. ASI is a British based publisher of textbooks and professional and postgraduate books in all areas of science, technology, engineering, mathematics and medicine.

Main Topic: *Chemistry, computer science, earth science, engineering, environmental sciences, life science, mathematics, statistics, medicine, management and physics.*

GLOBAL SCIENCE PRESS LIMITED (GSP) was established in 2005 in Hong Kong, China. GSP aims to publish latest state-of-the-art research findings in the fields of, but not limited to, Mathematics, Physics, Chemistry, and Computational Sciences. Its journals are accepted by Science Citation Index-Expanded (SCIE) list of journals, a testament of their robust quality.

Main Topic: Mathematics, Physics, Chemistry, and Computational Sciences

Hindustan Book Agency (HBA) is the publisher and distributor of advanced level books in mathematics and physics. HBA has published books jointly with Springer, Birkhauser, Cambridge University Press, World Scientific Press, American Mathematical Society and Princeton University Press. It publishes established series in mathematics, Texts and Readings in Mathematics, and a similar series in physics entitled, Texts and Readings in Physical Sciences.

Main Topic: Physical Sciences, Mathematics, Culture and History of Mathematics

IntechOpen

International Society of Automation (ISA) founded in 1945 and develops standards; certifies industry professionals; provides education and training; publishes books and technical articles; and hosts conferences and exhibitions for the automation professionals. The organization is set to becoming the standard for automation globally by certifying industry professionals; providing education and training; publishing books and technical articles; hosting conferences and exhibitions for automation professionals; and developing standards for industry.

Main Topic: Industrial Engineering, Applied Engineering, Control System & Automation

Momentum Press was founded in 2007 with core areas in engineering, applied science and technology. Its aim is to reach practitioners, researchers, educational faculty, and students in engineering, science, and industry with both traditional print media and electronically delivered content. Momentum Press publishes original scientific and engineering content, with a focus on the North-American, English language market, but with distribution and market presence worldwide.

Main Topic: China centric - Industrial Eng, Electrical Eng, Mechanical Eng, Civil & Environmental Eng, Material Science, Health, Life Sci and Psychology

MOMENTUM PRESS

Morgan & Claypool offers brief but focused book-length treatments (usually 100 pages or so) of fast-moving research areas. Morgan & Claypool's titles are instead meant to be pedagogical, showing a non-expert how to perform new research techniques and designs without wading through journal literature or monograph/reference works.

Main Topic: *Lecture Notes on Engineering, Computer Science & Information, Life Sciences, and Physics*

[iG Pub](#) | [iG Library](#) | [Fact Sheet](#)

Packt have published over 6,000 books and videos so far, providing IT professionals with the actionable knowledge they need to get the job done - whether that's specific learning on an emerging technology or optimizing key skills in more established tools.

Main Topic: *Mobile Development, Enterprise Systems, Analytics & BI, AI & Deep Learning, Machine Learning, Web Development, Game Development, Cloud Networking & SysAdmin, Cybersecurity, App Development, Programming Languages, Software Architecture & Design, DevOps & Automation, Hardware & IoT*

[iG Pub](#) | [iG Library](#) | [Fact Sheet](#)

The Institute of **Engineering and Technology (IET)** is one of the world's largest engineering institutions with 169,000 members in over 150 countries. The IET is working to engineer a better world by inspiring, informing and influencing our members, engineers and technicians, and all those who are touched by, or touch, the work of engineers.

Main Topic: *Physics, Electrical and electronic engineering, Computer and control engineering, Information technology for business, Mechanical and production engineering*

[iG Pub](#) | [iG Library](#) | [Fact Sheet](#)

WIT Press is a publisher of high-end scientific books and journals, available both electronically and in print.

Main Topic: *Acoustics, Bioengineering, Electrical Engineering & Electromagnetics, Historical Interest, Materials & Manufacturing, Risk and Security, Transport Engineering, Boundary Elements, Earthquake Engineering, Energy, Fluid Mechanics, Information & Communication Technologies, Mathematics & Statistics, Structural Engineering, Damage & Fracture Mechanics, Ecology, Environmental Engineering, Marine & Offshore Engineering, Numerical Methods for Engineering, Sustainable Development*

[iG Pub](#) | [iG Library](#) | [Fact Sheet](#)

World Scientific (WS) was established in 1981. World Scientific publishes about 600 new titles a year and 130 journals in various fields.

Main Topic: *Architecture/Building Management, Chemistry, Engineering/Acoustics, Life Sciences / Biology, Medicine, Social Sciences, Asian Studies, Computer Science, Environmental Science, Materials Science, Nanotechnology & Nano science, Nonlinear Science, Chaos & Dynamical Systems, Business & Management, Economics & Finance, General, Mathematics, Physics*
