

MULTI-DISCIPLINARY

## Specializes in Academic

Open Agenda Publishing focuses on academic publishing through its multimedia initiative Ideas Roadshow. It produces monographic scholarly book series derived from in-depth conversations with leading experts across arts and sciences, including Nobel Laureates, providing insights into cutting-edge research and personal narratives behind the discoveries for enhanced pedagogical benefits.

## Categories and Subjects

Open Agenda Publishing offers scholarly content in various subjects and categories, including arts and sciences. Their publications cover a wide array of topics encompassing advanced academic research and personal narratives behind the discoveries from conversations with world-leading experts, including Nobel Laureates.

## OPEN AGENDA PUBLISHING

## About

### Open Agenda Publishing (OAP)

produces the acclaimed multimedia project Ideas Roadshow, presenting two scholarly book series - Ideas Roadshow Conversations (100 books) and Ideas Roadshow Collections (20 books). Developed from discussions with prominent experts, including Nobel Laureates, these books delve into advanced academic research and illuminate the personal narratives and motivations shaping the research, making them invaluable educational tools.
