

**SCIENCE, ENGINEERING  
AND TECHNOLOGY**

**Specializes in Academic**

5m Books publications cater to veterinarians, animal experts, farmers, pet owners, and environmental enthusiasts seeking comprehensive knowledge to improve animal care practices and contribute to a sustainable world.

**Categories and Subjects**

5m Books specializes in veterinary sciences, animal health and welfare, farming practices, pet care, environmental sustainability, and regenerative agriculture. Their publications aim to enhance knowledge in these areas to improve animal well-being and promote a sustainable environment.

**About**

**5m Books** is an independent agriculture and veterinary publisher. We seek to improve the health and happiness of the animals we farm and live with and to regenerate the world we farm and live in. We create books with care for those who care: for animals within the veterinary and allied professions; for farmed animals and pets and want the best environmental, economic and welfare outcomes; and for the land, the sea and about the future of our planet.
